Application No. 10/613,880

CLAIMS:

What is claimed is:

1. (Currently amended) An inflatable gas pillow of any size comprising:
accordion type sidewalls
Velcro straps
~~bathtub design cut out at the bottom of the air bag with accordion style sides walls~~
lanyard
2. (Original) An inflatable gas pillow set forth in claim 1 wherein accordion type sides will provide for adjustable height.
3. (Original) An inflatable gas pillow set according to claim 1 wherein accordion sides will support adjustable seating surface.
4. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro straps will adjust height of the bag.
5. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro straps will adjust the angels of the bag.
6. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro straps attached to the foot rest will control the shape, firmness and the profile if the bag.
7. (Original) An inflatable gas pillow set according to claim 1 wherein varying the length of Velcro strap will permit changing the size of the bag.
8. (Original) An inflatable gas pillow set according to claim 1 wherein varying the length of the Velcro straps will change configuration of the bag.

Application No. 10/613,880

9. (Original) An inflatable gas pillow set according to claim 1 wherein employed Velcro straps will retain bag's shape even after multi inflation and deflation cycles.
10. (Original) An inflatable gas pillow set according to claim 1 wherein Velcro strap is configured to have longitudinal slit through most of the length of the strap
11. (Original) An inflatable gas pillow set according to claim 1 wherein Velcro strap having longitudinal slit through most of the length of the strap will permit approximate adjustment of a foot rest shape by employing one part of the strap.
12. (Original) An inflatable gas pillow set according to claim 1 wherein Velcro strap having longitudinal slit through most of the length of the strap will permit fine adjustment for the foot rest configuration using other part of the strap without loosing previous configuration.
13. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro strap with slit in the middle will accommodate passenger foot.
14. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro strap with slit in the middle will accommodate various attachments.
15. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro strap with slit in the middle will connect foot to the foot rest.
16. (Original) An inflatable gas pillow set forth in claim 1 wherein Velcro strap with slit in the middle will be left attached to the gas pillow with various attachments in order to simplify the removal the feet from the gas bag

Application No. 10/613,880

17. (Original) An inflatable gas pillow set forth in claim1 wherein Velcro strap with slit in the middle will be left attached to the gas pillow and form the loop for easier placement or removal of the feet from the gas bag
18. (Currently amended) An inflatable gas pillow set according to claim1 wherein bathtub design cut out with accordion style sides at the bottom of the air bag will minimizes amount of the air needed to fully inflate the pillow.
19. (Original) An inflatable gas pillow set according to claim1 wherein lanyard attached to air pillow will permit placement of the foot rest on desired spot on the floor
20. (Original) An inflatable gas pillow set according to claim1 wherein lanyard attached to foot rest will permit easy retrieval from the floor
21. (Original) An inflatable gas pillow set according to claim1 wherein lanyard will be attached to the folding tray in front of the seat for easy retrieval of the foot rest.
22. (Currently amended) An inflatable gas pillow set forth in claim1 wherein Bathtub, cut out at the bottom of the air bag, donut or torus design will limit the amount of the gas in the foot rest needed to provide full function of the device. This feature is especially useful for air travelers because federal safety regulations restrict the use of the compressed air dispensers in the cabin of the airplane.
23. (Currently amended) An inflatable gas pillow set forth in claim1 wherein bathtub design cut out at the bottom of the air bag will be eliminated in economy configuration and still retain most of the features
